## WORK EXPERIENCE

### ● Back-end Development

I have experience in developing web applications using Javascript, Node.js, Express and MongoDB. Built and maintain Restful API endpoints. Implement continuous integration and delivery pipelines. I am also familiar with using version control systems such as Git.

Here you can find one of my projects as an example for this: <http://3.89.221.54:8000/launch>

It got an React Front-end and was deployed with Docker on Amazons EC2.

For more Information you can visit my portfolio, LinkedIn or Github (on the left side under contact).
